

Hybrid Cloud offerings and services

Introduction

Integrating AI into IT and business operations is rapidly accelerating the importance of hybrid cloud investments in driving business operations and outcomes. HCLTech Hybrid Cloud Business Unit offers consulting, migration, modernization, systems integration, operations, management, transformation, consolidation and sustainability-led services through disruptive technology and flexible commercial and global delivery models. Our hybrid cloud services leverage next-generation hybrid cloud architecture, extreme automation, cognitive / AI-led solutions and agentic technology to scale initiatives, drive innovation and fast-track sustainable digital transformation while maximizing the potential of the hybrid cloud investments in a cost-optimized, industry-aligned and data-driven approach, thereby delivering more rapid time to value.

Services

Assessment and consulting

Design and architect

Build and migrate

Hosting services

Sustainable hybrid cloud services

Operate and optimize

Transformation services

Key differentiators

- Breadth and depth of offerings, IPs and services
 - Mainframe to cloud-native
 - Consulting to 24x7x365 mission critical ops
- Integrated and intelligent operations offering with extreme automation
- Leader in all major cloud analyst reports from Gartner, IDC, Forrester, Everest, Avasant, ISG, HFS
- Flexible engagement and consumption-led utility models

HCLTech hybrid cloud service offerings

Our comprehensive portfolio of offerings help enterprises in building a sustainable and resilient hybrid cloud foundation to drive AI-led transformation

Velocly

Hybrid cloud solution framework taking into consideration people, process, technology and cost

Cognitive Infrastructure Services

Scalable, secure environment for deploying AI applications

Data Uplift

Seamless modernization and optimization of data platforms

DB Uplift

Secure, scalable and cloud-ready database-as-a-service

Infonomics

Integrated information lifecycle management offering for hybrid cloud also including ransomware protection

VaultNXT

End to End offering to assess, build and operate a Cyber resiliency solution, that protects an enterprise's data against a cyber ransomware attack

Public Cloud Services

Azure /AWS/ GCP/ IBM RedHat native offerings and solutions

Mainframe-as-a-Service

E2E Mainframe modernization, transformation and operations

SAP, OCI Services

Accelerators, IPs and solutions for SAP on Cloud, Oracle Cloud

Hybrid Cloud Sustainability Services

Comprehensive suite of services aimed at reducing carbon footprint and promoting environmental stewardship

SmartPaaS

End-to-end, fully managed containers, serverless and PaaS offering

EdgeLITy

Intelligent edge and RoBo frameworks, architecture and solutions

HPC

Formulate, build, manage and operate HPC on-prem or on the Cloud

MigrateNXT

Extreme Automation-led Migration for time, cost and effort savings

ModernOps

Transforming the existing IT operations to intelligent operations to facilitate the product and consumer-centric business

CARE

Customized and focused site reliability engineering service and AppOps

Hybrid FinOps

Cloud spend optimization and financial management

Hybrid Cloud Cost Optimization Services

Recommendation of best cost optimization levers that align with business goals

IOps

CloudOps offering including AgileOps, AIOps, and AppOps

ElasticOps

AI-driven technology operations using smart algorithms to provide zero-touch automation of processes

DCxTwin

Digital twin of DC infrastructure with AI-powered spatial intelligence to monitor, manage and optimize operations

Azure Stack HCI

Reduce data center complexity and simplify the hybrid cloud journey by delivering hyper-convergence at scale

Skytap on Azure

Migrate traditional IBM Power workloads to Azure to modernize mission-critical workloads and gain cloud-scale benefits

Adaptive Data Center

Standardized, ready to consume IaaS, CaaS, PaaS solution stacks for hybrid cloud

AVS/VMC

Accelerate cloud transformation by extending VMware workloads to Azure/AWS

M&A

Seamless IT integration, separation, or carve-out during M&A/divestiture

Patching as a Service

Robust patching solution to identify and remediate vulnerabilities

Utility for Everything (U4X)

Utility-based "pay as you go" offering from private cloud

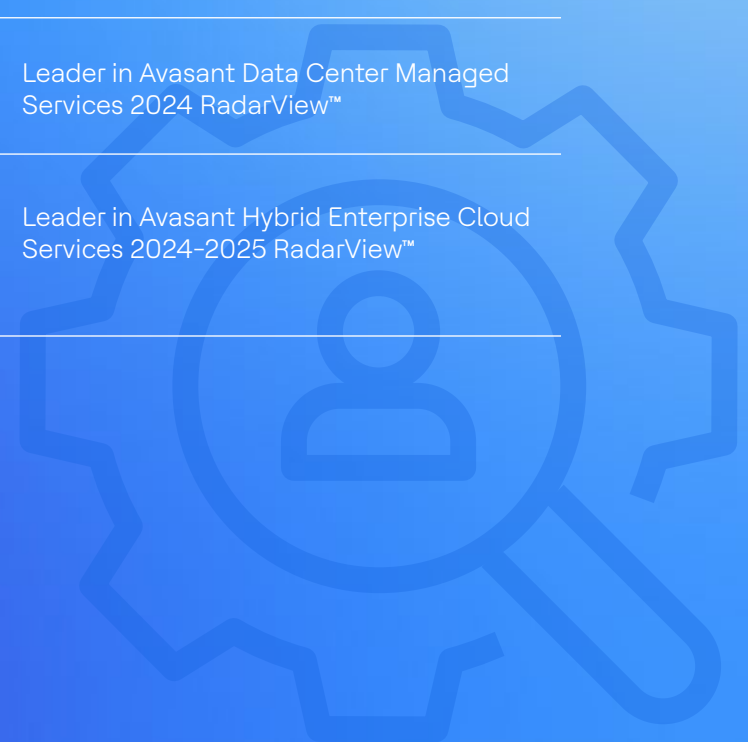

Cash4Assets

IT asset monetization and financial engineering to infuse liquidity and support- digital transformation

Analyst recognitions

- "Customer's Choice" in Gartner's Voice of the Customer report (VOC) for Data Center Outsourcing and Hybrid Infrastructure Managed Services, Worldwide 2024
- Leader in IDC MarketScope: Worldwide Cloud Professional Services 2024 Vendor Assessment
- Leader in Gartner Magic Quadrant for Public Cloud IT Transformation Services 2024
- Leader in Avasant Data Center Managed Services 2024 RadarView™
- Leader in Gartner Magic Quadrant for Data Center Outsourcing and Hybrid Infrastructure Managed Services, Worldwide 2023
- Leader in Avasant Hybrid Enterprise Cloud Services 2024-2025 RadarView™
- Leader in The Forrester Wave™: Infrastructure Outsourcing Services, Q4 2024
- Leader in The ISG Provider Lens™ Private/Hybrid Cloud – Data Center Services 2024 across multiple geographies

Key partnerships

HCLTech hybrid cloud services partnerships help to develop a distinctive innovation ecosystem and leverage joint expertise, solutions and platforms

HCLTech | Supercharging Progress™

HCLTech is a global technology company, home to more than 223,000 people across 60 countries, delivering industry-leading capabilities centered around digital, engineering, cloud and AI, powered by a broad portfolio of technology services and products. We work with clients across all major verticals, providing industry solutions for Financial Services, Manufacturing, Life Sciences and Healthcare, High Tech, Semiconductor, Telecom and Media, Retail and CPG, and Public Services. Consolidated revenues as of 12 months ending June 2025 totaled \$14 billion. To learn how we can supercharge progress for you, visit hcltech.com.
